Transylvania County Schools
Decision for Non-Identification
Academically/Intellectually Gifted Program

Dear Parent/Guardian:

Re: _____ (Student)

As you were previously notified, your child was nominated to be reviewed for placement in the academically/gifted program. The school's Team for Academically Gifted has reviewed your child's educational record and has determined that no services are recommended at this time.

You can be very proud that your child displays characteristics which have identified him or her for consideration as academically/intellectually gifted. Your child is a very bright child who performs at an above-average level in school. We will continue to monitor academic progress and watch test scores each year to see if further consideration is warranted.

Please contact me if you have questions or concerns about TAG's decision. You will find further information in the *Academically/Intellectually Gifted Parent Handbook*, which you received when we requested your permission to evaluate.

Sincerely,

TAG Chairman
