

# EXTENDED SCHOOL DAY SURVEY RESULTS

# Why We Surveyed - and What You Told Us

**After adding 10 minutes to the school day, we heard significant pushback from the teachers. In response, we surveyed our teachers to better understand their concerns and gauge their preferences. We asked two simple questions:**

1. *"If inclement weather puts our district below the required instructional hours, which option would you most prefer?"*
2. *"Which option would you least prefer?"*

The options for both questions:

- Add 10 minutes to each school day
- Use Days from Spring Break
- Attend School on Saturdays
- Extend the School Year
- Wait and see whether makeup time is actually needed before making any changes
- Other

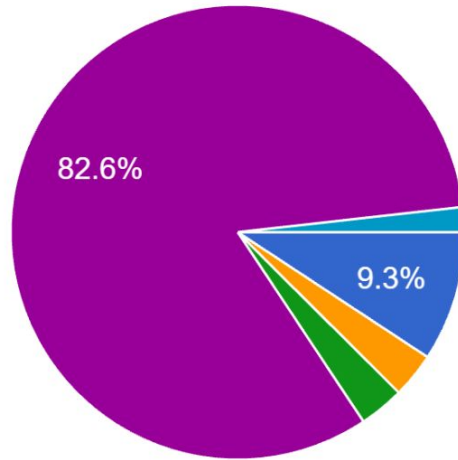

# If inclement weather puts our district below the required instructional hours, which option would you most prefer?

- Add 10 minutes to each school day
- Use Days from Spring Break
- Attend School on Saturdays
- Extend the School Year
- Wait and see whether makeup time is actually needed before making any changes
- Other

If inclement weather puts our district below the required instructional hours, which option would you most prefer?

281 responses

- Add 10 minutes to each school day
- Use days from Spring Break
- Attend school on Saturdays
- Extend the school year
- Wait and see whether makeup time is actually needed before making any changes

# Where Do We Go From Here?

- Remove the 10-minute addition to the school day
- Monitor instructional hours as the school year progresses
- Revisit makeup options only if we fall below the required threshold
