A. **PRINCIPLES**

Principals, assistant principals, teachers, and other instructional staff at each school are responsible for designing and implementing strategies to reach the educational goals of the Transylvania County Board of Education (the "board"). Input from the school community, including parents, students, and representatives from businesses and other agencies, is critical in developing an educational program that will meet the needs of the students and the community.

The board affirms the General Assembly's belief that all children can learn and that the
mission of public schools is to challenge, with high expectations, each child to learn,
achieve, and fulfill his or her potential.

Accordingly, the board has established in its policies its vision, standards, and means of accountability for the educational program. The superintendent shall provide guidance and establish any other standards necessary for effective implementation of the board's policies. Principals shall lead each school in implementing the policies. The school improvement plan is one tool that school administrators should use to draw upon the creativity and innovation of the staff and the community. This plan, in its two parts, should identify the school's efforts to improve student performance and reach the educational goals of the board.

B. PART ONE OF THE SCHOOL IMPROVEMENT PLAN: STATE PROGRAM FOR SCHOOL BASED MANAGEMENT AND ACCOUNTABILITY

The board endorses the principles set forth by the State Board of Education that all children need to master basic skills and knowledge and build upon this foundation for lifelong learning. Therefore, in developing their school improvement plans, all schools should ensure, to the extent possible, that sufficient resources and curricula are directed toward meeting the goal of having all students performing at grade level or higher in the basic subject and skill areas identified by the State Board.

1. School Improvement Team

Each school must have a school improvement team that develops the school improvement plan. The school improvement team will consist of the principal, representatives of the assistant principals, instructional personnel, instructional support personnel and teacher assistants assigned to the school building, and parents of students attending the school. Each group of school personnel shall elect representatives from their respective group by secret ballot. Parents are to be elected in accordance with G.S. 115C-105.27(a). The school improvement team is encouraged to involve and seek assistance from central office personnel. The school improvement team, especially at the middle and high schools, also is encouraged to seek input from students. The superintendent shall provide

46 47 48		with school improvement teams to develop, review, and amend school improvement plans.
48 49 50 51 52 53 54 55 55		The school improvement team shall follow all legal requirements in developing and obtaining school approval of the school improvement plan. School improvement team meetings will be held at a convenient time to facilitate substantial parent participation. The principal shall ensure that the school improvement team, as a public body, complies with the Open Meetings Law in regard to its meetings. Deliberations on the school safety components of the plan must be in closed session in accordance with G.S. 143-318.11(a)(8).
56 57 58	2.	Mandatory Components of the State Plan
59		A school improvement plan must include the following components.
60 61 62 63		a. The plan must specify the effective instructional practices and methods to be used to improve the academic performance of students identified as at risk of academic failure or at risk of dropping out of school.
64 65 66 67 68		b. The plan must take into consideration the minimum annual performance goal established by the State Board and the goals set out in the mission statement for public schools adopted by the State Board of Education.
69 70 71 72 73 74 75 76 77		c. The plan must be, to the greatest extent possible, data driven. The team shall use the Education Value Added Assessment System (EVAAS) or a compatible and comparable system approved by the State Board of Education to analyze student data to identify root causes for problems and determine actions to address them and to appropriately place students in courses such as Math I. The plan must contain clear, unambiguous targets, explicit indicators and actual measures, and expeditious time frames for meeting measurement standards.
78 79 80		d. The plan must identify how staff development funds allocated to the school will be used.
81 82 83		e. The plan must provide a duty-free lunch period for every teacher on a daily basis or as otherwise approved by the school improvement team.
84 85 86		f. The plan must provide duty-free instructional planning time for every full- time assigned classroom teacher, with the goal of providing an average of at least five hours of planning time per week.
87 88		g. The plan must attempt to identify and eliminate unnecessary and

guidance to principals to ensure that the principals establish and work together

 130 components. 131 a. The plan may include a request to transfer state funds from one allotment 	89		1	redundant reporting requirements for teachers and, to the extent
91 including requiring forms and reports to be in electronic form when 92 possible and incorporating relevant documents into the student accessible 93 components of the Instructional Improvement System. 94 h. As part of the school system's efforts to maintain safe and orderly schools, 96 the plan must address safety and discipline concerns. These concerns 97 include any special conditions at the school. The plan should include the 98 components of any positive behavior management or positive behavior 99 support programs that have been adopted at the school and should comply 90 with the requirements of policy 1510/4200/7270, School Safety, and all 910 protocols established by the Superintendent or designee under that policy. 92 i. For schools identified by the Department of Public Instruction as Focus or 93 include strategies to address the needs of all children, particularly the 94 lowest achieving, and how those needs will be met in a timely and 95 not meeting participation rates in the state assessment program, the plan 96 not meeting participation rates in the school improvement, the plan must 97 in accordance with policy 1310/4002, Parental Involvement, the plan must 98 identify	90

	130		compon	ents.
	131		a.	The plan may include a request to transfer state funds from one allotment
	132			category to another, as permitted by state law. The request must identify

133 134		the funding allotment categories involved in the transfer and identify how the transfer will facilitate improving student performance.
134		the transfer will facilitate improving student performance.
136		b. The plan may include a comprehensive conflict resolution plan, as
130		
		provided in G.S. 115C-81.15, in order to help create a safe school.
138		
139		c. The plan may provide for the use of textbooks that have not been adopted
140		by the State Board.
141		
142	4.	Development and Review of the Plan
143		
144		School improvement teams should review student performance data from the
145		preceding school year in developing the school improvement plan. Based on the
146		availability of data and when specific school standards are established by the State
147		Board, the superintendent shall establish the date by which school improvement
148		plans must be submitted.
149		
150		The principal first shall present the proposed school improvement plan to all of
151		the assistant principals, instructional personnel, instructional support personnel,
152		and teacher assistants assigned to the school building for their review and vote by
153		secret ballot. The principal then shall submit the school improvement plan to the
154		superintendent only if the proposed school improvement plan has the approval of
155		a majority of the staff who voted on the plan.
156		
157		The superintendent or designee shall review the plans and seek legal review as
158		necessary prior to presenting the plans with written recommendations to the
159		board. If the superintendent intends to recommend that a plan be rejected, the
160		superintendent shall notify the principal of the school and explain the reasons for
161		the decision. The school improvement team may then submit a modified plan,
162		approved by staff vote, to the superintendent. The superintendent should submit
163		all school improvement plans to the board at the earliest possible date.
164		
165		The board will review the school improvement plans. The review of the school
166		safety components of the plans must be in closed session. The board shall make
167		findings on the safety components of the plan. Neither the safety components of
168		the plans nor the board's findings on the safety components of the plans may be
169		set out in the minutes of the board.
170		
171		After review of the school improvement plans, the board will accept or reject each
172		school improvement plan. If a plan is rejected, the board will explain the specific
173		reason(s) for the rejection.
174		· · · · · · · · · · · · · · · · · · ·
175		Any plan modified by the school improvement team after being rejected by the
176		board must be resubmitted to the school personnel for vote and, upon majority

approval, resubmitted to the superintendent for review. The superintendent shall resubmit the modified plan to the board with his or her recommendations as soon as is practical. The board will review the modifications along with any recommendations from the superintendent and accept or reject the plan.

- 181
 182 If the board and the school improvement team cannot reach agreement on the plan
 183 within 60 days after its initial submission, the board or school may request to use
 184 the dispute resolution process developed by the State Board under G.S. 115C185 105.20(b)(5). Alternatively, if use of the dispute resolution process is not
 186 requested, the board may develop a school improvement plan for the school.
- 188 A school improvement plan may be in effect for no more than two years. The 189 plan must be reviewed at least annually by the school improvement team in 190 accordance with the review process established in the school's plan. If a school 191 does not meet its expected growth standard as established by the State Board or if 192 more than 25% of the students performed below grade level, the principal must 193 submit to the superintendent and the board a report of the school improvement 194 team. The report must explain the reasons for the standard(s) not being met and 195 describe any modifications that will be made in the school improvement plan. 196 After considering any recommendations of the superintendent, if the board is not 197 satisfied with the response of the school improvement team, the board may 198 suggest modifications to the plan or may vacate those portions of the plan that 199 impede student performance and require the school improvement team to revise 200 the plan. 201

Elimination of Redundant or Unnecessary Reporting Requirements

If, at any time before or after the board approves the school improvement plan, the school improvement team identifies a more expeditious manner of providing information to the board that will eliminate a redundant or unnecessary reporting requirement for teachers at its school, the team may make a written request to the superintendent to eliminate the redundant or unnecessary report. The superintendent shall recommend to the board whether the reporting requirement should be eliminated for that school. If the superintendent does not recommend elimination of the reporting requirement, the school improvement team may request a hearing by the board as provided in policy 2500, Hearings Before the Board.

6. Compliance with Requirements

217Any employee, parent, or other interested party is encouraged to notify the218principal of any concerns regarding compliance with this policy or G.S. 115C-219105.27. In addition, any employee, parent, or other interested party may submit in220writing to the superintendent concerns regarding compliance with this policy or

G.S. 115C-105.27. The superintendent shall make a good faith effort to investigate the concern and shall provide a written response upon request.

224 C. POSTING THE SCHOOL IMPROVEMENT PLAN ONLINE

The school improvement plan, except for its school safety components which are not public record, must be posted on the school's website. The names and positions of the members of the school improvement team, along with the date of each member's election to the team, must also be posted on the website.

231 **D. STAFF DEVELOPMENT**

The superintendent shall develop a process by which schools can learn from other schools' improvement plans. The superintendent and the schools are encouraged to use staff development resources to provide training to staff on the development, implementation, and evaluation of school improvement plans.

- School administrators must be evaluated by their supervisors on the school-based
 management process as required by board policy and state law and on the effectiveness of
 the school improvement plan.
