The Transylvania County Board of Education (the "board") recognizes the importance of setting rigorous graduation requirements to help ensure that students are receiving an education that will prepare them to be career and college ready and productive members of society.

In order to graduate from high school, students must meet the following requirements:

1. successful completion of all course unit requirements as described in Section A; and
2. successful completion of cardiopulmonary resuscitation instruction.

The principal shall ensure that students and parents are aware of all graduation requirements. Guidance program staff shall assist students in selecting their high school courses to ensure that students are taking all of the required units and selecting electives consistent with their postgraduation plans. For students who have transferred to the school system during high school or who, for other reasons, have completed course work outside of the school system, the principal shall determine what course work will be applied as credit toward graduation. The principal shall consider the requirements of the Interstate Compact on Educational Opportunity for Military Children (G.S. 115C-407.5) and the requirements of subsection C. 3 of this policy in determining the graduation requirements for children of military families.

## A. Course Units Required

All students must fulfill the course unit requirements of the Future-Ready Core Course of Study, unless they are approved for the Future-Ready Occupational Course of Study. The tables in subsection A.1, below, lists the course unit requirements for the FutureReady Core Course of Study and the Future-Ready Occupational Course of Study based on the student's year of entry into applicable to students who entered ninth grade for the first time. during the $2013-2014$ sehool year or thereafter. Students who entered the ninth grade for the first time before the 2013-2014 school year should consult their guidance counselors to determine applicable course unit requirements for graduation.

In accordance with policy 3101, Dual Enrollment, and State Board of Education requirements, students may earn high school credit for college courses completed. In addition, students may earn credit for certain high school courses in the Future-Ready Core Course of Study completed while in middle school, as authorized by the State Board of Education; however, such courses will not be included in the calculation of a student's high school grade point average. Students also have the opportunity to meet course unit requirements without completing the regular period of classroom instruction by demonstrating mastery of the course material in accordance with policy 3420, Student Promotion and Accountability, and State Board of Education requirements.

All awards of high school course credit must be consistent with State Board of Education requirements. Any inconsistency between board policy and State Board graduation requirements will be resolved by following the State Board requirements. While the
board endeavors to keep its policy up to date with current State Board of Education graduation requirements, students should verify current requirements with their guidance counselors when planning course schedules or making other decisions based on graduation requirements.

1. Future-Ready Core Course of Study Credits Required for Students Entering Ninth Grade for the First Time before 2020-2021

| Courses Required* | State Requirements | Additional <br> Local <br> Requirements |
| :--- | :--- | :--- |
| English | 4 sequential (English I, II, III, and IV) |  |
| Mathematics | 4 (NC Math 1, 2, and 3 and a fourth math course <br> aligned with the student's post-high school plans.)** <br> (A principal may exempt a student from this math <br> sequence. | Career/Technicat | 4 (Career and Technical Edueation electives) |  |
| Oceupational <br> Preparation | 6 (ineluding Oceupational Preparation I, II, III, and IV, which require 150 hours of school-based training, 225 hours of community-based training, and 225 hours of paid employment*) |  |
| Electives | $\theta$ |  |
| Other Requirements | - Completion of IEP objectives <br> - Career Portfolio |  |
| Total Credits | 22 |  |

*-Paid employment is the expectation; however, when paid employment is not available, 225 hours of unpaid vocational training, unpaid internship experience, paid employment at community rehabilitation facilities, and volunteer and/or community service hours may substitute for 225 hours of paid employment.

## B. High School Final Exams and-End-of-Course and Other Testing

High school students must take all end-of-course (EOC) tests, NC Final Exams, and Career and Technical Education State Assessments (CTE Post-Assessments), and any
other applicable exams or assessments required by the State Board of Education and pursuant to policy 3410, Testing and Assessment Program.

## C. Transylvania County Schools Career and College Readiness Portfolio

Beginning with students entering ninth grade in 2021-2022, Sstudents must complete and meet the expectations of the Transylvania County Schools Career and College Readiness Portfolio as defined by the Transylvania County Schools Career and College Readiness Portfolio Handbook as a condition of high school graduation from Transylvania County Schools. Each high school within the system shall follow the guidelines established in the Transylvania County Schools Career and College Readiness Portfolio Handbook.

## D. Special Circumstances

The board adopts the following policies with regard to graduation.

1. Honor Graduates

Honor graduates may be designated by principals on the basis of criteria established by the superintendent. Recognition of honor graduates may be included in graduation programs.
2. Students with Disabilities

Graduation requirements must be applied to students with disabilities to the extent required by state and federal law and State Board policy.

## 3. Children of Military Families

In order to facilitate the on-time graduation of children of military families, the board adopts the following policy provisions for students to whom the Interstate Compact on Educational Opportunity for Military Children applies.
a. Waiver Requirements

Specific course work required for graduation will be waived if similar course work has been satisfactorily completed in another school system. If a waiver is not granted, school administrators shall provide the student with reasonable justification for the denial. If a waiver is not granted to a student who would qualify to graduate from the sending school, the superintendent or designee shall provide the student with an alternative means of acquiring the required course work so that the student may graduate on time.
b. Testing Requirements for Graduation

The superintendent shall accept the following in lieu of any local testing requirements for graduation: (1) the end-of-course exams required for graduation from the sending state; (2) national norm-referenced achievement tests; or (3) alternative testing. If these alternatives are not feasible for a student who has transferred in his or her senior year, subsection c below will apply.
c. Transfers During Senior Year

If a child of a military family who has transferred at the beginning of or during his or her senior year is ineligible to graduate from the school system after all of the alternatives listed above have been considered and the student meets the graduation requirements at his or her sending school, then school officials from the school system shall collaborate with the sending school system to ensure that the student will receive a diploma from the sending board of education.
4. Early Graduation

Graduation prior to that of one's class may be permitted on the basis of criteria approved by the board upon recommendation by the superintendent.
5. Graduation Certificates

Graduation certificates will be awarded to eligible students in accordance with the standards set forth in State Board policy.
6. Diploma Endorsements

Students have the opportunity to earn one or more of the following diploma endorsements identifying a particular area of focused study: (1) Career Endorsement, (2) College Endorsement (two options), (3) North Carolina Academic Scholars Endorsement, and/or (4) a Global Languages Endorsement. No endorsement is required to receive a diploma.
7. Differentiated High School Diploma

Transylvania County Schools offers a differentiated diploma program at each high school for students who are at risk of dropping out of school or who have faced significant barriers to completion of the traditional high school diploma program. The differentiated diploma is a standard North Carolina high school diploma requiring students to complete minimum state requirements for graduation.

The differentiated diploma is not a "fast-track" program, but is designed for students who are having difficulty meeting the 28 -credit graduation requirement established by the Board. Upon recommendation by the principal, review of a district-level committee, and approval by the superintendent or designee, a student may be eligible to graduate and receive a differentiated diploma upon satisfying the minimum state requirements for graduation ( 22 total credits with no additional local requirements) as outlined in Section A, above, and any additional requirements established by the superintendent or designee.
