

1 Each school must have a plan for managing student behavior that incorporates effective
2 strategies consistent with the purposes and principles established in policy 4300, Student
3 Behavior Policies. School officials are encouraged to implement a system of positive behavior
4 support and to seek other positive, innovative, and constructive methods of correcting and
5 managing student behavior in an effort to avoid repeated misbehavior and suspension.
6

7 **A. COMPONENTS OF THE PLAN**
8

9 The plan should address: (1) the process by which student behavior will be addressed,
10 including any use of a disciplinary committee and the means by which students at risk of
11 repeated disruptive or disorderly conduct are identified, assessed, and assisted; (2)
12 positive behavioral interventions and possible consequences that will be used; and (3)
13 parental involvement strategies that address when parents or guardians will be notified or
14 involved in issues related to their child’s behavior (see policy 4341, Parental Involvement
15 in Student Behavior Issues).
16

17 No school plan for managing student behavior may authorize the use of corporal
18 punishment. Corporal punishment is the intentional infliction of physical pain upon the
19 body of a student as a disciplinary measure. It includes, but is not limited to, spanking,
20 paddling, and slapping. The [Transylvania County Board of Education \(the “board”\)](#)
21 prohibits corporal punishment, believing that other consequences are more appropriate
22 and effective for teaching self-control. No teacher, substitute teacher, student teacher,
23 bus driver, or other employee, contractor, or volunteer may use corporal punishment to
24 discipline any student. Reasonable force that is necessary to protect oneself or others is
25 not considered corporal punishment. (See also policy 4301, Authority of School
26 Personnel.)
27

28 Principals shall avoid removing students from the classroom for a long period of time,
29 including in-school or out-of-school suspension, unless necessary to provide a safe,
30 orderly environment that is conducive to learning. The principal is authorized to remove
31 students in accordance with board policies for prohibited or criminal conduct or for other
32 behavior that interferes with a safe, orderly environment.
33

34 **B. PROCESS FOR DEVELOPING AND EVALUATING THE PLAN**
35

36 Principals are encouraged to use a team approach in developing and evaluating the
37 school’s plan to manage student behavior. On at least an annual basis, the plan should be
38 evaluated based upon data on disciplinary actions taken and the impact on student
39 academic performance. Principals shall report on at least an annual basis to the
40 superintendent and the board on the effectiveness of the plan in minimizing classroom
41 disruptions, referrals to the principal’s office, and the use of out-of-school suspension.
42 The report also will address the plan’s effect on academic performance.
43

**SCHOOL PLAN FOR
MANAGEMENT OF STUDENT BEHAVIOR**

Policy Code: **4302**

44 The superintendent also is encouraged to consider, develop, and propose new and
45 alternative discipline programs to the board.
