

1 The Transylvania County Board of Education (the “board”) desires to provide opportunities to  
2 responsible suppliers to do business with the school system. To this end, the superintendent is  
3 directed to develop and maintain lists of potential vendors for the various types of materials,  
4 equipment, and supplies. Such lists will be used in the development of a mailing list for  
5 distribution of specifications, invitations to bid, and notice of other competitive purchasing  
6 processes.

7  
8 The superintendent or designee has the discretion to determine which vendors are included on  
9 the list and may establish standards for being placed on the list or for remaining on the list. The  
10 standards shall ~~comply with~~ **take into account** the requirements of G.S. 147, art. 6E **and art. 6G**.  
11 The superintendent is encouraged to include vendors listed as historically underutilized  
12 businesses with the Division of Purchase and Contracts at the State Department of  
13 Administration.
