

1 The Transylvania County Board of Education (the “board”) is committed to making resource
2 conservation an integral part of the school system’s operation and to providing an example to
3 students and the community of responsible stewardship of natural resources.

4
5 The superintendent shall establish programs that will help the school system meet the following
6 board goals:

- 7
8 1. integrating the concept of resource conservation, including waste reduction and recycling,
9 into the curriculum;
- 10
11 2. reducing the consumption of consumable materials whenever possible;
- 12
13 3. fully utilizing all materials prior to disposal;
- 14
15 4. minimizing the use of non-biodegradable products whenever possible;
- 16
17 5. purchasing recycled products when financially viable; and
- 18
19 6. encouraging suppliers, both private and public, to make recyclable products and
20 unbleached paper products available for purchase by public schools.
