

The Transylvania County Board of Education authorizes the superintendent to allocate all personnel, supplies, and materials to the schools of Transylvania County in such manner as to insure that allocation procedures are in harmony with state and local regulations and are supportive of established Board goals.

These resources are to be allocated on a pupil membership basis. The formula for distribution may vary by grade level. Each school's composite share, as compared to the total allocation for all schools, is to correlate with the school's proportion of the total pupil membership of all like schools in the county when this can be accomplished without detriment to the operation of schools.

Definitions:

Like Schools - Schools with the same or similar grade level organization, such as K-5 and K-6, 6-8 and 7-8, 9-12.

Correlate - To mutually relate within the framework of reason. (Example: one school may have one-half the number of pupils and teachers as another school; however, each school may be allocated one principal and one secretary.)
