PUBLIC SOLICITATIONS IN THE SCHOOLS

FILE: KI

The Transylvania County Board of Education acknowledges the importance of nationally and regionally recognized and bonafide charitable organizations. However, the Board believes the educational goals of the schools and the needs of students must be the Board's most important consideration.

School time may not be used for student orientation or involvement. Announcement posters designed for student attention may be placed on school bulletin boards. Materials for student use are not to be placed or distributed in the schools.

Student participation is to be on a voluntary basis.

Approved by Board  
and effective 11/2/82
